No other evaluation criteria or methodologies shall be permitted.

If the Bid of the Successful / Most Advantageous Bidder is seriously unbalanced in relation to the Employer's estimate of the cost of work or Services to be performed under the Contract, the Employer may require the bidder to produce detailed price analyses for any or all items of the Bill of Quantities / Schedule of Prices to demonstrate the internal consistency of those prices with the construction methods and schedule proposed. After evaluation of the price analyses, the Employer may require that the amount of the Performance Security set forth in Clause ITB.42 may be increased at the expense of the Successful / Most Advantageous Bidder to a level sufficient to protect the Employer against financial loss in the event of default of the successful bidder under the Contract.

- b) Before rejecting an abnormally low Bid the Employer shall request the Bidder an explanation of the Bid or of those parts which it considers contribute to the Bid being abnormally low; take account of the evidence provided in response to a request in writing; and subsequently verify the Bid or parts of the Bid being abnormally low;
- c) The decision of the Employer to reject a Bid and reasons for the decision shall be recorded in the procurement proceedings and promptly communicated to the Bidder concerned;
- d) The Employer shall not incur any liability solely by rejecting abnormally low Bid; and
- e) An abnormally low Bid means, in the light of the Employer's estimate and of all the Bids submitted, the Bid appears to be abnormally low by not providing a margin for normal levels of profit.

In order to identify the Abnormally Low Bid (ALB); the Employer may consider following approaches to minimize the scope of subjectivity:

- a) Comparing the bid price with the cost estimate;
- b) Comparing the bid price with the bids offered by other bidders submitting substantially responsive bids; and
- c) Comparing the bid price with prices paid in similar contracts in the recent past by the Employer or

any other Federal or Provincial Department / Organization / Agency.

The Employer will determine to its satisfaction whether the Bidder that is selected as having submitted the most advantageous bid is qualified to perform the contract satisfactorily, in accordance with Clause ITB.16.

The determination will take into account the Bidder’s experience in the field. It will be based upon an examination of the documentary evidence of the Bidder’s qualifications submitted by the Bidder, pursuant to ITB 16, as well as such other information as the Employer deems necessary and appropriate. Factors not included in these Bidding Documents shall not be used in the evaluation of the Bidders’ qualifications.

The Employer may seek “Certificate for Independent Price Determination” from the Bidder and the results of reference checks may be used in determining award of contract.

An affirmative determination will be a prerequisite for award of the contract to the Bidder. A negative determination will result in rejection of the Bidder’s Bid, in which event the Employer will proceed to the next ranked bidder to make a similar determination of that Bidder’s capabilities to perform satisfactorily.
